HOW TO MEASURE YOUR RING SIZE

PLEASE NOTE:

- When printing this document, do not 'fit' or 'shrink' to page.
- Please ensure you are printing on standard A4 paper.
- Your ring sizer should measure 160mm in length.

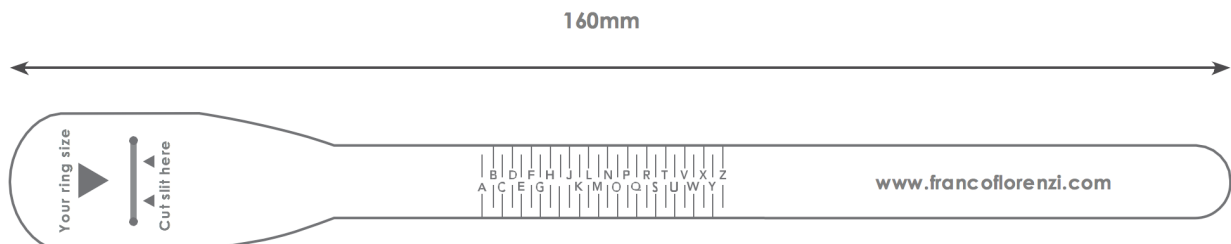

OPTION 1: MEASURE AN EXISTING RING

1. Select an existing ring that fits your desired finger.
2. Place the ring over the circles until the inside circumference of the ring matches a specific circle.
3. If your ring falls in between two sizes, consider the width of the band. A wider band may require a slightly larger ring size.

OPTION 2: USE RING SIZER TO MEASURE FINGER

1. Print and carefully cut around the ring sizer below.
2. Place the end of the ring sizer through the indicated slit to form a loop.
3. Wrap the loop around your finger with the letters side visible. The letter that appears closest to the slit is your ring size.

Please note: It is important that the size can slide on and off the finger comfortably.
